

World of Tanks clan GRN .. US & EU or just US ??

as some of you may have noticed, we have a GRN clan in World of Tanks on the US server, which is fine n dandy ..

however, voices have been heard about some players having their tanks on the EU server (like me), which kinda makes a good question ..

should we have a US AND EU GRN clan .. or should we stick to the US one ..

anyways, gonna make it a poll to see what u lot think

Would be nice if there was a EU clan to as not everyone is on the US or wish to be on it as there own friends would be on the EU server.
